SUMMARY OF 1980 CENSUS

POPULATION AND RACIAL BREAKDOWN

BY CENSUS TRACT

BERKSHIRE COUNTY

PREPARED BY

UNITED COMMUNITY PLANNING CORPORATION

87 KILBY STREET

BOSTON, MA 02109

(617) 482-9090

PL94-171 POPULATION DATA

These tract/town breakdowns were extracted from the U.S. Bureau of the Census PL 94-171 computer tape using the CENSPAC software. These data are mandated by the Constitution for the purpose of legislative redistricting, and were released in April, 1981. These data were released prior to any court decisions with respect to the accuracy and representation of the 1980 Census.

The data in this report have been broken down by tracts within each town in the county. Only those towns which have been officially tracted by the Bureau are included in these tables. Tract boundary maps for the Boston area, as well as PL 94-171 breakdowns for other counties are available from United Community Planning Corporation.

Users of these data should be aware that the five category racial breakdown will include more detailed breakdowns in later census releases. Also, users should realize that the 1980 "Spanish origin" item may not be equivalent to the 1970 "Spanish language" item. Spanish origin is a separate question from race in the 1980 census, so a person claiming Hispanic origin may be of any race. Spanish origin is thus not considered a racial classification.

SUMMARY OF 1980 CENSUS
POPULATION AND RACIAL BREAKDOWN
BY CENSUS TRACT

BRISTOL COUNTY

PREPARED BY

UNITED COMMUNITY PLANNING CORPORATION

87 KILBY STREET

BOSTON, MA 02109

(617) 482-9090

PL94-171 POPULATION DATA

These tract/town breakdowns were extracted from the U.S. Bureau of the Census PL 94-171 computer tape using the CENSPAC software. These data are mandated by the Constitution for the purpose of legislative redistricting, and were released in April, 1981. These data were released prior to any court decisions with respect to the accuracy and representation of the 1980 Census.

The data in this report have been broken down by tracts within each town in the county. Only those towns which have been officially tracted by the Bureau are included in these tables. Tract boundary maps for the Boston area, as well as PL 94-171 breakdowns for other counties are available from United Community Planning Corporation.

Users of these data should be aware that the five category racial breakdown will include more detailed breakdowns in later census releases. Also, users should realize that the 1980 "Spanish origin" item may not be equivalent to the 1970 "Spanish language" item. Spanish origin is a separate question from race in the 1980 census, so a person claiming Hispanic origin may be of any race. Spanish origin is thus not considered a racial classification.

SUMMARY OF 1980 CENSUS

POPULATION AND RACIAL BREAKDOWN

BY CENSUS TRACT

ESSEX COUNTY

PREPARED BY

UNITED COMMUNITY PLANNING CORPORATION

87 KILBY STREET

BOSTON, MA 02109

(617) 482-9090

PL94-171 POPULATION DATA

These tract/town breakdowns were extracted from the U.S. Bureau of the Census PL 94-171 computer tape using the CENSPAC software. These data are mandated by the Constitution for the purpose of legislative redistricting, and were released in April, 1981. These data were released prior to any court decisions with respect to the accuracy and representation of the 1980 Census.

The data in this report have been broken down by tracts within each town in the county. Only those towns which have been officially tracted by the Bureau are included in these tables. Tract boundary maps for the Boston area, as well as PL 94-171 breakdowns for other counties are available from United Community Planning Corporation.

Users of these data should be aware that the five category racial breakdown will include more detailed breakdowns in later census releases. Also, users should realize that the 1980 "Spanish origin" item may not be equivalent to the 1970 "Spanish language" item. Spanish origin is a separate question from race in the 1980 census, so a person claiming Hispanic origin may be of any race. Spanish origin is thus not considered a racial classification.

SUMMARY OF 1980 CENSUS

POPULATION AND RACIAL BREAKDOWN

BY CENSUS TRACT

HAMPDEN COUNTY

PREPARED BY

UNITED COMMUNITY PLANNING CORPORATION

87 KILBY STREET

BOSTON, MA 02109

(617) 482-9090

PL94-171 POPULATION DATA

These tract/town breakdowns were extracted from the U.S. Bureau of the Census PL 94-171 computer tape using the CENSPAC software. These data are mandated by the Constitution for the purpose of legislative redistricting, and were released in April, 1981. These data were released prior to any court decisions with respect to the accuracy and representation of the 1980 Census.

The data in this report have been broken down by tracts within each town in the county. Only those towns which have been officially tracted by the Bureau are included in these tables. Tract boundary maps for the Boston area, as well as PL 94-171 breakdowns for other counties are available from United Community Planning Corporation.

Users of these data should be aware that the five category racial breakdown will include more detailed breakdowns in later census releases. Also, users should realize that the 1980 "Spanish origin" item may not be equivalent to the 1970 "Spanish language" item. Spanish origin is a separate question from race in the 1980 census, so a person claiming Hispanic origin may be of any race. Spanish origin is thus not considered a racial classification.

POPULATION AND RACIAL BREAKDOWN

BY CENSUS TRACT

HAMPSHIRE COUNTY

PREPARED BY

UNITED COMMUNITY PLANNING CORPORATION

87 KILBY STREET

BOSTON, MA 02109

(617) 482-9090

PL94-171 POPULATION DATA

These tract/town breakdowns were extracted from the U.S. Bureau of the Census PL 94-171 computer tape using the CENSPAC software. These data are mandated by the Constitution for the purpose of legislative redistricting, and were released in April, 1981. These data were released prior to any court decisions with respect to the accuracy and representation of the 1980 Census.

The data in this report have been broken down by tracts within each town in the county. Only those towns which have been officially tracted by the Bureau are included in these tables. Tract boundary maps for the Boston area, as well as PL 94-171 breakdowns for other counties are available from United Community Planning Corporation.

Users of these data should be aware that the five category racial breakdown will include more detailed breakdowns in later census releases. Also, users should realize that the 1980 "Spanish origin" item may not be equivalent to the 1970 "Spanish language" item. Spanish origin is a separate question from race in the 1980 census, so a person claiming Hispanic origin may be of any race. Spanish origin is thus not considered a racial classification.

SUMMARY OF 1980 CENSUS

POPULATION AND RACIAL BREAKDOWN

BY CENSUS TRACT

NORFOLK COUNTY

PREPARED BY

UNITED COMMUNITY PLANNING CORPORATION

87 KILBY STREET

BOSTON, MA 02109

(617) 482-9090

PL94-171 POPULATION DATA

These tract/town breakdowns were extracted from the U.S. Bureau of the Census PL 94-171 computer tape using the CENSPAC software. These data are mandated by the Constitution for the purpose of legislative redistricting, and were released in April, 1981. These data were released prior to any court decisions with respect to the accuracy and representation of the 1980 Census.

The data in this report have been broken down by tracts within each town in the county. Only those towns which have been officially tracted by the Bureau are included in these tables. Tract boundary maps for the Boston area, as well as PL 94-171 breakdowns for other counties are available from United Community Planning Corporation.

Users of these data should be aware that the five category racial breakdown will include more detailed breakdowns in later census releases. Also, users should realize that the 1980 "Spanish origin" item may not be equivalent to the 1970 "Spanish language" item. Spanish origin is a separate question from race in the 1980 census, so a person claiming Hispanic origin may be of any race. Spanish origin is thus not considered a racial classification.

PL94-171 POPULATION DATA

These tract/town breakdowns were extracted from the U.S. Bureau of the Census PL 94-171 computer tape using the CENSPAC software. These data are mandated by the Constitution for the purpose of legislative redistricting, and were released in April, 1981. These data were released prior to any court decisions with respect to the accuracy and representation of the 1980 Census.

The data in this report have been broken down by tracts within each town in the county. Only those towns which have been officially tracted by the Bureau are included in these tables. Tract boundary maps for the Boston area, as well as PL 94-171 breakdowns for other counties are available from United Community Planning Corporation.

Users of these data should be aware that the five category racial breakdown will include more detailed breakdowns in later census releases. Also, users should realize that the 1980 "Spanish origin" item may not be equivalent to the 1970 "Spanish language" item. Spanish origin is a separate question from race in the 1980 census, so a person claiming Hispanic origin may be of any race. Spanish origin is thus not considered a racial classification.

PL94-171 POPULATION DATA

These tract/town breakdowns were extracted from the U.S. Bureau of the Census PL 94-171 computer tape using the CENSPAC software. These data are mandated by the Constitution for the purpose of legislative redistricting, and were released in April, 1981. These data were released prior to any court decisions with respect to the accuracy and representation of the 1980 Census.

The data in this report have been broken down by tracts within each town in the county. Only those towns which have been officially tracted by the Bureau are included in these tables. Tract boundary maps for the Boston area, as well as PL 94-171 breakdowns for other counties are available from United Community Planning Corporation.

Users of these data should be aware that the five category racial breakdown will include more detailed breakdowns in later census releases. Also, users should realize that the 1980 "Spanish origin" item may not be equivalent to the 1970 "Spanish language" item. Spanish origin is a separate question from race in the 1980 census, so a person claiming Hispanic origin may be of any race. Spanish origin is thus not considered a racial classification.

SUMMARY OF 1980 CENSUS

POPULATION AND RACIAL BREAKDOWN

BY CENSUS TRACT

WORCESTER COUNTY

PREPARED BY

UNITED COMMUNITY PLANNING CORPORATION

87 KILBY STREET

BOSTON, MA 02109

(617) 482-9090

PL94-171 POPULATION DATA

These tract/town breakdowns were extracted from the U.S. Bureau of the Census PL 94-171 computer tape using the CENSPAC software. These data are mandated by the Constitution for the purpose of legislative redistricting, and were released in April, 1981. These data were released prior to any court decisions with respect to the accuracy and representation of the 1980 Census.

The data in this report have been broken down by tracts within each town in the county. Only those towns which have been officially tracted by the Bureau are included in these tables. Tract boundary maps for the Boston area, as well as PL 94-171 breakdowns for other counties are available from United Community Planning Corporation.

Users of these data should be aware that the five category racial breakdown will include more detailed breakdowns in later census releases. Also, users should realize that the 1980 "Spanish origin" item may not be equivalent to the 1970 "Spanish language" item. Spanish origin is a separate question from race in the 1980 census, so a person claiming Hispanic origin may be of any race. Spanish origin is thus not considered a racial classification.
